business hours. Programming requests can be forwarded via email to [vatenantservices@quad1.com](mailto:vatenantservices@quad1.com), upon receipt, card requests will be processed in most circumstances within a twenty-four (24) hour period during normal business hours. Tenants will receive email confirmation that the request was completed by the DATAWATCH personnel.

### **Heating, Ventilation and Air Conditioning**

HVAC service is provided as part of the building operating expenses Monday through Friday from 8:00 a.m. to 6:00 p.m. and on Saturdays (by request only) from 8:00AM to 1:00P. If service is needed beyond those hours, please send a request to [extrahvac@quad1.com](mailto:extrahvac@quad1.com) outlining the date, times, and zones for which you need service. You will be invoices for that time at the current OT HVAC rate. The building is broken down into two zones – East and West – with the elevator bank being the dividing line between the zones.

### **Delivery / Move in-out Procedures**

Deliveries to the building must take place as follows. Use of the service elevator for less than thirty (30) minutes may be accommodated during normal business hours. Day time deliveries must be no larger than can be accommodated on a two wheeled cart. Deliveries that require use of the service elevator on independent service (i.e. furniture and office equipment) must be scheduled in advance for after hours, before 8am or after 6pm M-F. All deliveries must be made through the loading dock, and deliveries are restricted to the service elevator only. Please contact the property management office to coordinate use of the elevator and loading dock. The building staff and/or concierge are not permitted to accept deliveries on behalf of tenants. ### **Recycling and Waste**

Towers Crescent operates under a Single Stream Recycling Program. That means that ALL approved recyclable material can be included together in the same bin. See attached information for approved materials i.e., cardboard, paper, plastic, cans, glass etc. All of the recycling is combined into one container to make it easier for our tenants and we don't have to worry about separating certain products. Once the recycling is delivered to our contractor's plant, it is then separated, and the materials are on their way to be re-used. We are committed to help in any way we can. Whether that means providing recycling containers large or small, stickers, signs, educational presentations, or setting up a trip to the recycling plant, we are ready to help.
